

# CONFESSIONS ON THE SUPERNATURAL LIFE

I am a spirit, born of the Spirit and I possess the nature of God. The Spirit of God dwells in me, influences me, empowers me, guides me, conditions me and expresses God's capabilities through me. I live beyond my five senses and outside the realm of human knowledge because I am supernatural and I live everyday supernatural.

My life is governed, directed and influenced by the divine nature and supernatural capabilities. I sense the invisible, hear the inaudible and dare the impossible all according to my supernatural nature. My supernatural nature manifests in big things, ordinary things and every area of my life because I am supernatural and I live everyday supernatural.

Divine wisdom, power, peace, patience, love and joy are parts of my divinity and I manifest them daily. I am not limited in expression, growth and manifestation by economic conditions, medical sciences, political systems and financial systems, because I am supernatural and I live everyday supernatural.

I am resilient, creative,  
perceptive, full of power and  
strong in character in a way  
that ordinary humans cannot  
fathom. When people  
encounter me, interact with  
the work of my hands and try  
to analyze my life, they  
perceive divinity because I am  
supernatural and I live  
everyday Supernatural.
