TECH THEM YOUNG

The Business and Career Hub (IT Professionals) put together these digital skills training themed 'Tech Them Young'. The aim was to introduce secondary school students to digital skills early, to better-equip them to deliver value in their chosen career or business. A high school summer camp for coding is scheduled for next year.

THE LAUNCHPAD

This was a business masterclass by the Business and Career Hub of our Ikorodu expression. This event taught entrepreneurs useful skillsets required to grow their business and scale through tough and uncertain times. Key topics were: Brand Development, Strategic Planning, Digital Marketing, Customer Service Management, Book-keeping & Accounting.

CONNECT GROUP TESTIMONY.

I joined The Elevation Church in August 2021, and I attended the Teacher's hangout.

From the guest speaker's session, I was reminded of the fact that I needed more out of the teaching profession.

I received insight on how to review my CV and I got a sense of direction on how to acquire more certifications.

I was able to complete a course on Alison and I recently got a partial scholarship to study for my post-graduate certificate in education. While I was thinking about the financial demands of this course, I got a £50 voucher as part of my initial deposit.

I am so glad that I attended the Teacher's hangout.
D. O.
